Petition for Rule Making  
FM Channel 247A  
Ft. Towson, Oklahoma  
June 20, 2003

**Attachment A**

Request to Reclassify  
Station KMMY (FM), Muskogee, Oklahoma  
Pursuant to MM Docket 98-93

Radio Station KMMY(FM), Muskogee, Oklahoma is licensed to KMMY Inc, P.O. Box 1250, Sapulpa, OK 74067, (Facility ID 35141), FCC File No. BLH 20000214AAX. The facility operates with a power of 100 kilowatts with center of radiation 380 meters height above average terrain. The above captioned Docket 98-93 provides the mechanism to automatically downgrade a Class C facility to Class C0 when a demand is made for the spectrum, as is the case here. Charles Crawford respectfully requests that the license of Radio Station KMMY(FM) be modified to specify operation on FM Channel 246C0 instead of on FM Channel 246C in accordance with the above Docket which provides for such downgrades when a demand for the unused spectrum is made, as is the case here.

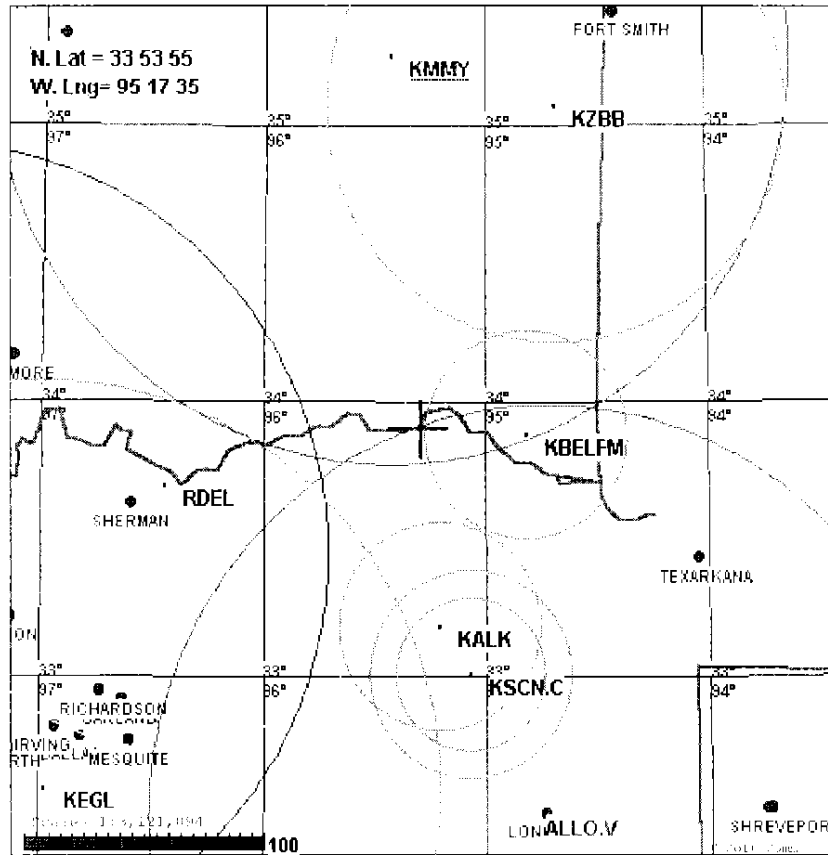

Charles Crawford, the proponent of Channel 247A/ Ft. Towson, Oklahoma, in accordance with the above Docket, formally requests that the Commission reclassify Radio Station KMMY(FM) as a Class C0 facility. Charles Crawford certifies that no alternative channel is available for the service he proposes at Ft. Towson, Oklahoma as is proposed in the Petition for Rule Making. A copy of this Petition for Rule Making is being served on KMMY Inc., as is required in the above Docket.
